Privacy Notice

Protecting euRopean public spaces against Emergent hoStile drone thrEats thRough an adVanced multidimensional shield and cross-border intelligEnce (hereinafter, “PRESERVE” or “Project”) is a Research and Innovation Actions (RIA) project, funded by the Horizon Framework Programme within the HORIZON-CL3-2023-FCT-01-04 call. It will be conducted by an international consortium comprising 17 partners (hereinafter the “Consortium”).

Radical changes and evolution in drone technology have produced low-cost techniques for its weaponisation, including open-source drone swarms. Such technology is emerging as a low-risk high-impact attack tactic by non-state actors, posing a threat to public spaces. Law enforcement authorities need appropriate tools to prevent and detect such risks. The EU-funded PRESERVE project will produce four key products, combined with certified trainings, to unlock such capabilities for police authorities.

As a part of the work of the PRESERVE project, the Consortium is committed to constitute a community of stakeholders to be engaged in dissemination activities through the project newsletter.
